

**REACH Regulation No. 1907/2006 EC,  
Information on Substances of Very High Concern in Articles (SVHC's).**

An updated candidate list (as of 23.01.2024 - 240 SVHC's) according to Article 59 (1, 10) of the regulation (EC) No. 1907/2006 ("REACH") has been published.

According to our investigations and information from our upstream suppliers, contain individual products one or more constituent articles of which contain(s) a substance of very high concern identified in accordance with Article 59(1) of that regulation in a concentration above 0.1% weight by weight of that article.

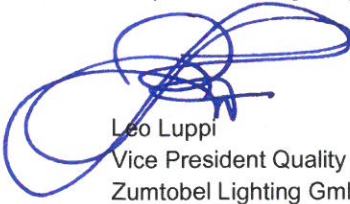

The use of these substances assures an optimal material characteristics for these products. The usage is in conformance with the REACH Regulation.

All products which can contain SVHCs, are going to be recorded in the SCIP database (substances of concern in articles and products) of the ECHA.

SVHC	CAS Number	Effect	Safe Use Instruction
Lead	7439-92-1	toxic to reproduction (article 57c)	The identification of the Candidate List substance is sufficient to allow safe use of the article throughout the whole life cycle including service life, disassembly and waste/recycling stage
Cadmium	7440-43-9	carcinogenic (Article 57a) specific target organ toxicity after repeated exposure (Article 57 f)	
Di-boron trioxide	1303-86-2	toxic to reproduction (article 57c)	
Imadazolidin-2-thione	96-45-7	toxic to reproduction (article 57c)	
Lead titanium zirconium oxide	12626-81-2	toxic to reproduction (article 57c)	
2-(2H-benzotriazol-2-yl)-4-(1,1,3,3-tetramethylbutyl)phenol	3147-75-9	VPVB very Persistent and very bio accumulative (article 57e)	
Octamethyl-cyclotetrasiloxane	556-67-2	persistent, bio accumulative and toxic (PBT) substance according to Article 57 (d) Very persistent and very bio accumulative (vPvB) substance according to Article 57 (e)	
2,2',6,6'-tetrabromo-4,4'-isopropylidenediphenol	79-94-7	carcinogenic (Article 57a)	

Only for batteries: please consider the separate information sheet (in the packaging) concerning the batteries contained in the single battery emergency luminaires.

The information is based on our current best knowledge and based on information provided by our suppliers. In the event of any change in our knowledge, we shall update the information in this REACH Information Dossier. Reviews are performed regularly in line with the publication of the REACH candidate list.
