

# DEHNcare WJP Protective Overall "Advanced"

## Accessories

### WJP O AP 3XL (786 766)

Arm protectors (set) for protective overall against high-pressure water jets.

- Increased protection against cuts and puncture wounds
- Reflectors for better visibility
- Silver popper – to start with buttoning

| Type<br>Part No.                                  | WJP O AP 3XL<br>786 766                                    |
|---------------------------------------------------|------------------------------------------------------------|
| High-pressure resistant                           | ≤ 1000bar                                                  |
| Size                                              | 58 (3XL)                                                   |
| Material                                          | para-aramid fabric with polymer coating                    |
| Type                                              | breathable and waterproof<br>(class 3 according to EN 343) |
| Standards / test principles                       | EN 343, EN 13034 (type 6), GS-IFA-P15                      |
| Test parameters according to<br>GS-IFA-P15        | flat jet nozzle type B                                     |
| – Distance (nozzle – surface<br>of test sample)   | 7.5cm                                                      |
| – Angle (high-pressure water<br>jet)              | 15°                                                        |
| – Speed (feed)                                    | 0.5m/s                                                     |
| – Water quantity (high-pres-<br>sure water jet)   | 22l/min                                                    |
| – Pressure (high-pressure<br>water jet)           | 1200bar*                                                   |
| Weight                                            | 300 g                                                      |
| Customs tariff number<br>(Comb. Nomenclature VAE) | 62113390                                                   |
