Other combinations on request.

### Main features

- Protection degrees IP67 and IP69K
- Version with 2 or 3 buttons
- -40 °C version
- Version with central backlit cap

### Quality marks:

IMQ approval: CA02.04805  
 UL approval: E131787  
 EAC approval: RU C-IT.YT03.B.00035/19

### Technical data

#### General data

Protection degree:	IP67 acc. to EN 60529 IP69K acc. to ISO 20653
Ambient temperature:	-25°C ... +80°C (standard) -40°C ... +80°C (T6 option)
Safety parameter $B_{10D}$ :	2,000,000
Mechanical endurance:	1 million operating cycles
Max. actuation frequency:	3600 operating cycles/hour
Actuating force at limit of travel:	4.4 N (without contacts)
Maximum travel:	5 mm
Tightening torque of the fixing ring:	2 ... 2.5 Nm
Utilization requirements:	see page 169

#### In compliance with standards:

IEC 60947-1, IEC 60947-5-1, IEC 60204-1, EN 60947-1, EN 60947-5-1, EN 60204-1, EN IEC 63000, UL 508, CSA C22.2 No. 14.

#### ⚠ Installation for safety applications:

Use only contact blocks marked with the symbol . The safety circuit must always be connected to **NC contacts** (normally closed contacts: .1-2).

#### Compliance with the requirements of:

Low Voltage Directive 2014/35/EU,  
 EMC Directive 2014/30/EU,  
 RoHS Directive 2011/65/EU.

#### Positive contact opening in conformity with standards:

IEC 60947-5-1, EN 60947-5-1.

### Features approved by UL

For Use on a Flat Surface of a Type 1, 4X, 12 and 13  
 Tightening torque 2.0 Nm

### General data

#### Button profile

In order to be used in different types of application, the EROUND line double and triple buttons are now available in two shapes: projecting and flush. The possible choice of shapes, colours and symbols allows various code combinations for buttons.

#### Illuminated version

For double buttons, the version with central backlit cap is available.

#### Metal fixing ring

The fixing ring in metal is particularly suitable for those applications which require tighter fitting of the panel-mounted device, such as for example in metal panels having holes without reference notches.

#### Shaped ring

The shaped ring can be used when no label holder or other devices are applied; it prevents dirt and other residues from settling between the button and the panel or housing.

This turns out to be particularly useful in the sectors where high standards of cleanness and hygiene are required.

#### Customisable

In order to satisfy various customer requests and demands, Pizzato Elettrica offers the possibility to customize the control and signalling devices of the EROUND line: the bezels can be requested with different colours (black or satin chrome), whereas the lenses can be customized with a wide range of writings, symbols, and colours.

#### Protection degrees IP67 and IP69K

**IP69K**  
**IP67**

These devices are designed to be used under the toughest environmental conditions, and they pass the IP67 immersion test acc. to EN 60529. They can therefore be used in all environments where the maximum degree of protection is required for the housing. Due to their special design, these devices are suitable for use in equipment subjected to cleaning with high pressure hot water jets. These devices meet the IP69K test requirements according to ISO 20653 (water jets with 100 bar and 80°C).

#### Extended temperature range

**-40°C**

These devices are also available in a special version suitable for an ambient operating temperature range from -40°C up to +80°C.

They can therefore be used for applications in cold stores, sterilisers and other equipment with low temperature environments. The special materials used to produce these versions retain their characteristics even under these conditions, thereby expanding the installation possibilities.

**Selection table for double buttons**

Other combinations on request.

→ For data regarding contact blocks and LED units, please see the respective chapters.

## Protection cap

Packs of 10 pcs.

	Article	Description
	VE CA1C1	Protection cap for double and triple projecting buttons
VE CA1D1	Protection cap for double flush button	

With the protection cap it is not possible to apply the shaped ring.

## Shaped ring

Packs of 50 pcs.

	Article	Description
	VE GP12L1A	Shaped ring for double and triple button E2 ●PD●●●●●●●● E2 ●PT●●●●●●●●

With the shaped ring it is not possible to apply the protection cap.

## Accessories

→ More ACCESSORIES on page 161

**Dimensional drawings** All values in the drawings are in mm

**Flush double button**

**Projecting double button**

**Triple button**

**Minimum distances for installation**

→ The 2D and 3D files are available at [www.pizzato.com](http://www.pizzato.com)

**Maximum number of contact blocks**

3-slot mounting adapter	4-slot mounting adapter
-------------------------	-------------------------

Double buttons E2 •PD••••••••

maximum number:  
4 contact blocks  
2 levels

Triple buttons E2 •PT••••••••

maximum number:  
7 contact blocks  
3 levels

Double buttons E2 •PD•Q••••••••

maximum number:  
4 contact blocks  
1 level

The actuators, with the specific button for 4-slot base, can be mounted only after fixing the button.
