

Communication accessories

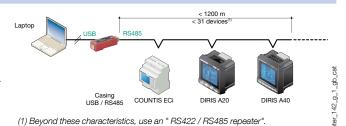

Connecting the RS485 link

USB / RS485 interface

Function

If the PC is not equipped with a serial port, this interface can be connected via a USB port to obtain an RS485 communication port. Recommended for local use and not for permanent installation.

Modbus/Profinet communication gateway

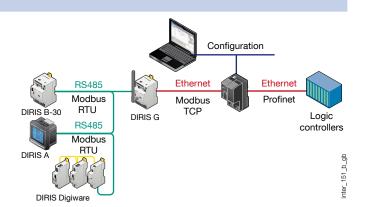

Function

The PROFINET communication gateway enables SOCOMEC communicating products in TCP modbus to be connected to a PROFINET network.

Advantages

Implementation, maintenance and diagnostic with a unique configuration software (Sycon.net), which is downloadable from SOCOMEC website.

- Several communication ports.
- IP20 DIN-rail mounting.
- Slot for MMC memory card.
- Configuration via USB port using a PC.
- Operation signalling Leds.
- Modbus data conversion up to 512 bytes data with Profinet (Modbus slave).

| Memory | 8 MB SDRAM | |
|-----------------------------|--------------------------------------|------------------|
| | 4 MB serial Flash | |
| | MMC card (optional) 2 GByte ma | х |
| Power supply | Voltage 24 V ± 6 V DC - reverse p | pole protected |
| | 24 V current (typical) 130 mA | |
| | 3.2 W power consumption | |
| | Mini-COMBICON, 2-pin connector | |
| Configuration interface | USB | |
| Operating temperature | 0 + 60 °C | |
| Dimensions W x H x D | 100 x 70 x 52 mm (without connector) | |

Communication accessories

RS422 / RS485 repeater

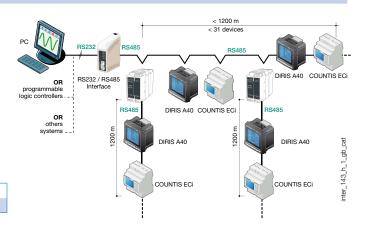

Function

In some applications the maximum distance and/or the maximum number of devices can be exceeded. One solution to this technical restriction is to install an interface which amplifies the signal over a further 1200 m (at 9600 bauds) for 31 devices.

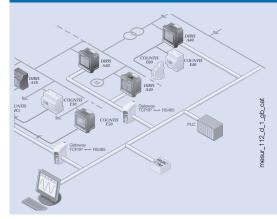

In addition, it allows you to introduce a new branch to the network, thereby making it possible to reduce the length of connection cable required by avoiding back and forth cabling.

Other solutions and services

The accessories listed in these pages represent a selection from our range.

We can supply many other solutions upon request, such as SHDSL interfaces, fibre optics/RS485, GSM/GPRS and protocol converter interfaces.

Need something integrating into your network?

No problem for our Expert Services team. They will fully integrate all your SOCOMEC devices, audit your system, commission selected equipment and train your staff on its use.

For further information, please contact your nearest SOCOMEC branch.
